

Installer / Technician (Low Voltage + Field Install)

Location: Petersburg, Alaska

Company: Homeport Electronics Inc.

Job Type: Full-Time | Hourly

Schedule: Monday–Friday + occasional project-based flexibility

Reports To: Lead Technician / Owner

About Homeport Electronics

Homeport Electronics is a locally owned technology services company serving Petersburg and Southeast Alaska. We provide IT solutions, low-voltage and networking installs, marine electronics sales/service, satellite internet setups, IP camera systems, and custom signage. Our team works across residential, commercial, and marine environments, delivering professional service with a small-town touch.

Position Summary

We are seeking a dependable, hands-on Installer/Technician to join our growing field team. This role focuses on installing and servicing low-voltage and networking systems in homes, businesses, and aboard vessels. You'll work on cabling, cameras, wireless gear, satellite internet, and related tech projects. Adaptability and pride in clean installs are essential.

Key Responsibilities:

Low-Voltage Cabling & Infrastructure

- Pull, terminate, label, and test Ethernet, coax, and related cabling
- Maintain tidy, well-routed, and clearly labeled cable runs
- Work in new construction and retrofit environments

Network & Device Installation

- Install routers, switches, wireless access points, and related hardware
- Configure basic connectivity and verify performance
- Assist senior techs on more complex network builds

Security, Sat, and Specialty Systems

- Install, aim, and connect IP camera systems and NVRs
- Support indoor/outdoor satellite internet installs
- Assist with specialty projects as needed (AV, racks, power backups, etc.)

Jobsite Execution & Documentation

- Read plans/work orders and complete tasks with minimal supervision
- Keep jobsites clean and professional
- Document work completed in the job/ticketing system
- Follow Homeport safety standards and install best practices

What We're Looking For

- 1+ year hands-on installation experience in low-voltage, AV, networking, or related trade
- Comfortable using ladders, power tools, and test tools
- Reliable, punctual, and able to work solo or with a crew
- Strong attention to detail and pride in workmanship
- Valid driver's license, clean driving record,
- Able to pass a background check

Bonus Points

- Basic networking knowledge (IP addressing, device setup)
- Experience with satellite internet equipment
- Marine/boat install experience
- Familiarity with racks, UPS/battery backups, or AV installs

Physical / Practical Requirements

- Lift/carry up to ~75 lbs
- Comfortable on ladders, rooftops, crawlspaces, and tight compartments
- Able to work outdoors in Southeast Alaska weather

What We Offer

- Diverse installs in a multi-skilled small team
- On-the-job training and advancement toward marine or IT roles
- Stable year-round work in a unique Alaskan community
